Takuo Hirouchi, Tahoma's foreign exchange student.

# East Meets West At Tahoma

Takuo Hirouchi became Tahoma's first foreign student this past year. Takuo comes from a family of three brothers who live in Minaka, Sannau, in the Japanese state of Hyogo.

Takuo came to the U.S. having interests in journalism. He finished one year in journalism at Kansai University in Osaka before coming to the U.S. This past year Takuo wrote several newspaper articles and he was named feature editor for the "Herald" during the second semester.

When asked about his thoughts on America he said that, "There is frankness in the nationality; there is a high standard of living; the weather here is much colder; and I definitely like American food." He noticed also that the only people prejudiced against the negroes are the illiterate.

Takuo found out many differences in American schools from Japanese schools. Tahoma, being a small school, made him feel strange at first, but then he came to know his fellow students and began feeling more at home. He noticed the closeness of the students and the free and friendly exchange between the students and teachers. "The schools here seem much easier than in Japan," he said.

Takuo seemed to get along with everyone; his smiling face was seen here and there all the time. He was a pleasure to talk to but if a word beyond "Hi" or "Good-Bye" was said, he would refer to his "best pal" his Japanese-American Dictionary.

Takuo's stay was sponsored by the Maple Valley Lion's Club and he stayed at the home of Mr. and Mrs. George Tersiisky.

Takuo glances up from his school work.

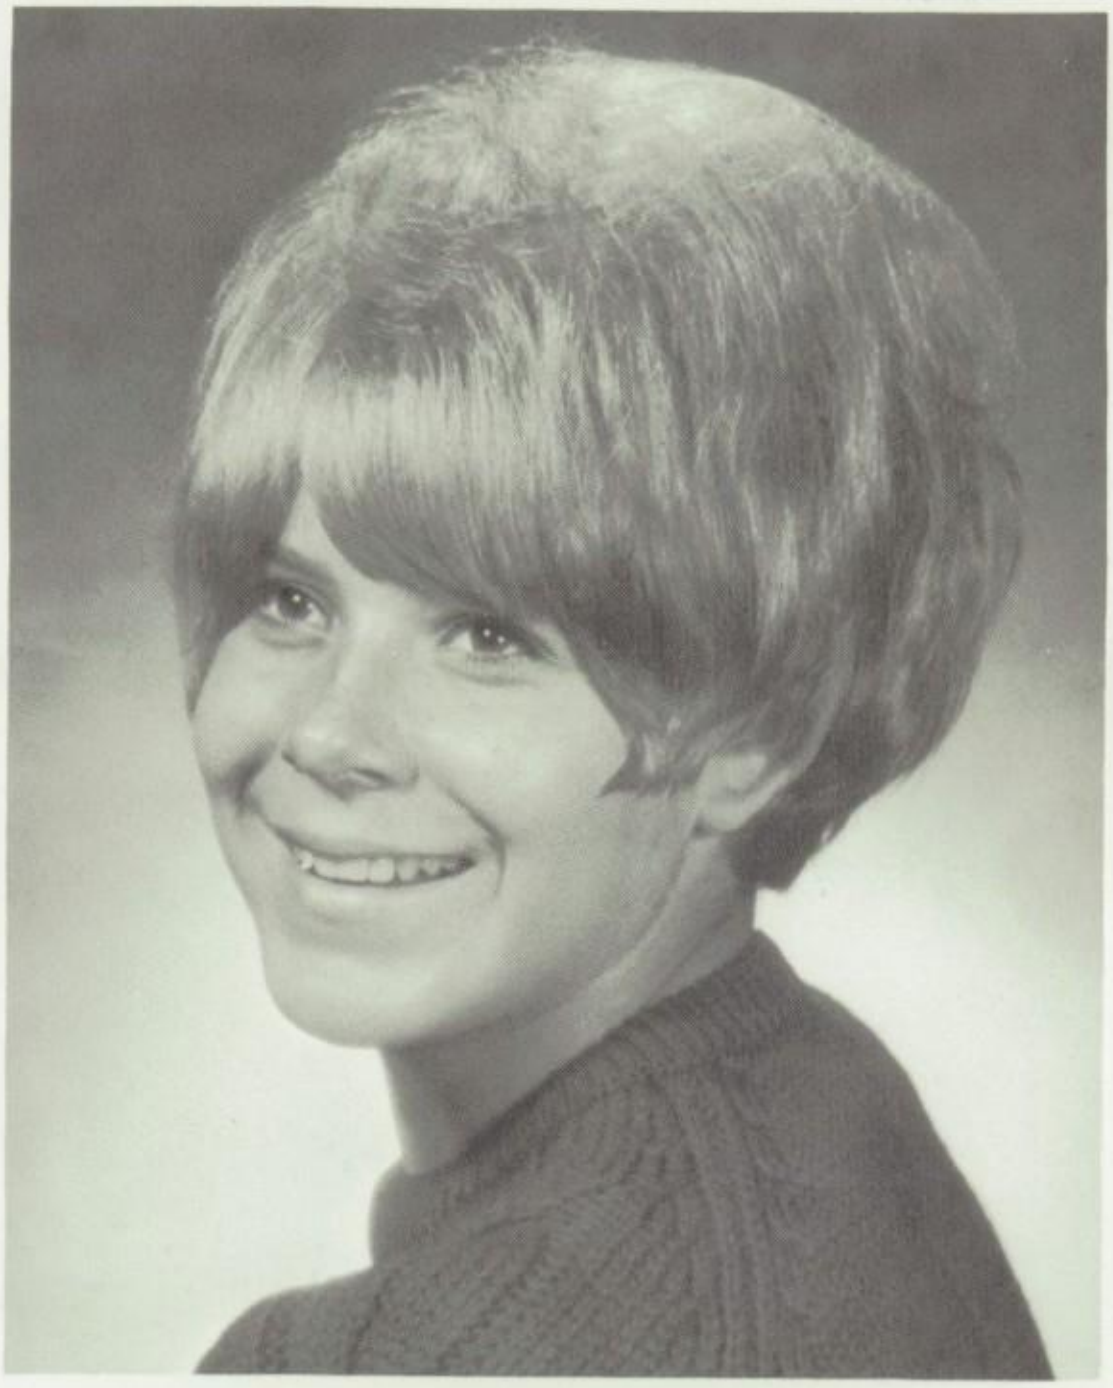
# In Memoriam



**Patti Berndt**

*Dear Patti,*

*Things haven't changed much since you've gone. Oh, sure the students here at Tahoma still live and laugh as they did when you were here with us. But it is plain to see that the effect of losing you has taken its painful toll on all who knew you.*

*Yes, things are pretty well back to normal, though the Choir sings a little softer, the Pep Assemblies lack a little something, and some students here are strangely quiet at special moments.*

*This year is going to be a long one and being without you will only seem to make it longer. Graduation will be an event that few will soon forget at Tahoma. Just try to bear in mind that there will be a seat among the departing seniors for a sole person. That person being you, Patti.*

*And though we'll never see your face, or hear your voice again. . . . to the people that knew you well and loved you, the spirit and vigor of Patti Berndt will stay with them the rest of their lives.*

*A Friend*

Dear Jacque,

... Well, here I am again, with a full page to sign. Seems as if every annual that I get a hold of, I have to write a full page in. Oh, what fun! We sure had a time in Chemistry. But you could always grip that stuff out really good that we could become friends this year, and you're one of my best friends. I'm sure had some hard times among us guys and gals for my beliefs because you're almost ended. things have seemt to be stood up for my beliefs and I'm grateful friend to have two and tomorrow we only have two left! And now we're all set! I guess we will really a swell friend. Well, I don't know that I do. Well, tomorrow we only have two hours of school this year. I can hardly believe it! seniors. I can hardly believe our school because of this summer except to be a fairly enthusiastic class. I don't "rule" the school and I'm gonnas do this summer what I'm gonnas do for my love life! Ha! Heh! a pole and watch out for my love life! Ha! Heh! But that sure has developed into a real problem, you know. Really, I don't know what to do. But, I guess things will work out. But, anyhow, I'll see ya at the parties this summer and I hope that I can have this summer. But always remember that I'm a true friend and will always be. always remember to love & trust God above all. God bless you always,

A Friend Forever,

Brig.
